Professional summary

Clinical research professional with 4+ years of experience in participant visit coordination, laboratory workflows, and research data quality. At PPD, coordinated consent, procedures, and laboratory assessments and performed source data QC and EDC query resolution. Designed an Excel QC tracker that reduced protocol deviations by 25% and shipping errors by 50%. Additional experience includes IRB submissions and study documentation.

Professional experience

University of Washington | Division of Medical Oncology | Seattle, WA

Regulatory Affairs Coordinator | Jul 2024 - Aug 2026

- Managed regulatory and operational workflows for 18-21 concurrent Phase I-III hematologic-oncology trials across WCG, Fred Hutch, and UW IRBs.
- Maintained a 100% on-time IRB approval record for initial submissions and approximately 8-10 monthly protocol and informed consent amendments, with zero regulatory-driven study delays.
- Led monitoring pre-briefs with investigators, coordinators, and CRAs; used Microsoft Teams action trackers to close issues before monitoring visits.
- Enforced 24-hour SAE reporting timelines across 21 active protocols; led quarterly deviation reconciliation and peer quality control under GCP and institutional SOPs.
- Managed site audit readiness and eTMF compliance in Florence eReg, OnCore, SIP, and Veeva Vault; supported 2 sponsor audits and 1 FDA inspection with zero critical findings.

PPD (Thermo Fisher Scientific) | Orlando, FL

Clinical Research Coordinator I | Nov 2023 - Jun 2024

Research Lab Tech I/II | Jan 2022 - Nov 2023

- Designed and implemented an Excel QC tracker for pharmacokinetic sample collection and processing; daily audits and weekly feedback reduced protocol deviations by 25% and shipping errors by 50%.
- Scheduled and coordinated participant study visits, informed consent and re-consent, clinical procedures, and laboratory assessments within protocol windows.
- Performed high-volume source data quality control and EDC entry in Medidata Rave and PreClarus; resolved queries to meet sponsor data-lock deadlines.
- Identified, documented, and reported adverse events and serious adverse events in accordance with sponsor protocols, institutional SOPs, and FDA requirements.

Skills and systems

Research and data quality: Participant scheduling, consent and re-consent coordination, protocol-driven study visits, laboratory assessments, source data QC, EDC query resolution, Excel tracking and daily QC audits.

Documentation and systems: IRB submissions and amendments, protocol and consent document control, GCP and SOP compliance; Medidata Rave, PreClarus, OnCore, Florence eReg, Veeva Vault, WCG ClinSphere eReview Manager, Microsoft Teams, OneDrive.

Therapeutic experience

Oncology: hematologic malignancies (Phase I-III). Neurology: Parkinson's (Phase I), Alzheimer's (Phase Ib), ALS (Phase I). Additional Phase I respiratory and infectious disease trials.

Education

B.S. Applied Health Sciences | Eastern Florida State College | Aug 2026

Associate of Arts | Valencia College | Dec 2016
